[04:21] wirxli2: hehehe  
[04:21] Jo Ellsmere: one part per billion  
[04:22] wirxli2: its just the idea of chicken

[04:39] wirxli2: helllooooooooooooooooooooo  
[04:39] lizsolo Mathilde: hi lodro!!!!  
[04:40] wirxli2: lodro has an amazing dress  
[04:40] Gijs8861: The world is not going to end here @ Ameland. Things happen two years later here, usually  
[04:40] wirxli2: heheheh thats funny  
[04:40] Jo Ellsmere: Apocalypse Delayed  
[04:41] wirxli2: by that time there will be a new apocalypse  
[04:42] wirxli2: I guess it is like a pre-digital Y2K, this Mayan idea  
[04:42] Lodro Rigdzin Wangpo (lodro.kamala) is offline.  
[04:42] Gijs8861: Exactly, but was fun while it lasted  
[04:42] wirxli2: its a system of measurement that reaches its limit  
[04:42] Pye (pyewacket.kazyanenko): but data, like time, is infinite  
[04:43] Gijs8861: Since when is a system of human measurement a measure for the universe?  
[04:43] wirxli2: yes, I think many Mayans are concerned with landrights and exploitation of their resources, so they do have real apocalypses to deal with  
[04:43] Conover's Flight-Helper 6.3.3 (WEAR ME!): Flight-helper is ready and operational.  
[04:43] Lodro Rigdzin Wangpo (lodro.kamala) is online.  
[04:43] wirxli2: yes, never  
[04:43] Pye (pyewacket.kazyanenko): indeed  
[04:43] wirxli2: the universe is infinity x infinity and more  
[04:43] Gijs8861: Agree  
[04:43] wirxli2: incomprehensible  
[04:43] Pye (pyewacket.kazyanenko): hopefully some awareness will come of it for their sake  
[04:44] wirxli2: but we need fictions and measurements that relate to our human proportions  
[04:44] Gijs8861: Incomprehensible, yes. That's what makes it so much fun  
[04:44] Jo Ellsmere: Hello Isetine :)  
[04:44] Gijs8861: Mankind is somehow solipsistic in its attitude to the universe  
[04:44] Isetine (isetine.heron): `Hello Jo  
[04:45] Pye (pyewacket.kazyanenko): what solipsistic mean?  
[04:45] wirxli2: yes, very narcissistic  
[04:45] wirxli2: narcissistic  
[04:45] wirxli2: :-)  
[04:45] wirxli2: I think  
[04:45] Pye (pyewacket.kazyanenko): humanistic  
[04:45] Pye (pyewacket.kazyanenko): the world still revolves around humans  
[04:45] Jo Ellsmere: in our own minds  
[04:46] wirxli2: yes, its not all bad, its seems to be necessary and self love is not so bad, especially if it helps hold the world together  
[04:46] Gijs8861: So we have gotten a new chance again, humans!  
[04:46] wirxli2: yeah... I quite like humans  
[04:46] Lodro Rigdzin Wangpo (lodro.kamala): instead of incomprehensible, perhaps inconceivable in its oppositions?  
[04:47] wirxli2: mmm yes  
[04:47] Jo Ellsmere: at least, for the moment. Maybe someday mankind will have some real

understanding?

[04:47] Gijs8861: Yes, I like them too

[04:47] Lodro Rigdzin Wangpo (lodro.kamala): everything both different from and identical with its source

[04:47] wirxli2: :-D

[04:47] Pye (pyewacket.kazyanenko): mankind ..im not sure. AI maybe

[04:48] wirxli2: I think humans do have to think more about other lifeforms

[04:48] Jo Ellsmere: agreed

[04:48] Gijs8861: agreed

[04:48] lizsolo Mathilde: LOL

[04:48] lizsolo Mathilde: as much as we can

[04:48] lizsolo Mathilde: isalnders

[04:49] wirxli2: virtual worlds help us speculate

[04:51] Gijs8861: Well, I'm not axactly a real student. Was never a success at schools and universities.

[04:51] Jo Ellsmere: that doesn't mean you're not a \*real\* student!

[04:51] Gijs8861: So I startded studuing real life

[04:51] wirxli2: ah, like the best students

[04:52] Gijs8861: I hope so and sometimes I think so

[04:52] wirxli2: cool

[04:52] Gijs8861: Being an autodidact gives one lots of freedom. Of thought mainly

[04:53] wirxli2: wirxli2 relies far too much on his bioself for his knowledge

[04:53] wirxli2: yes

[04:53] Pye (pyewacket.kazyanenko): cherio..im to go set up a bit ofa show ..

[04:53] wirxli2: by Pye!!!

[04:53] Gijs8861: On the other hand, Dutch society seems not to function without certificated professional evidence
